

PulseCare™ Dementia Care

PULSECARE™ DEMENTIA CARE

There are over 1.5 million adult social care workers in the U.K. Social care includes residential care, domiciliary care and social work with all its specialisms. Dementia care is a growing concern for social care workers.

PulseLearning creates learning solutions that bring measurable business value to our clients. We achieve this through a high-energy, client-centric approach that combines excellence in people, process, partners, technology and innovation.

The Pulse**Care**™ solution from **Pulse**Learning was custom-created for care home organisations. Our solution provides a complete education and training solution that overcomes the day-to-day barriers to achieving dementia care compliance. These barriers include dispersed workforces, high employee turnover and non-native speakers.

The Pulse**Care**™ Dementia Care course goes beyond making your employees compliant with the dementia care knowledge sets issued by Skills for Care in February 2007. Our course seeks to educate learners to value and accept the individual by seeing the person first and the dementia second.

The Dementia Care course from **Pulse**Learning provides the foundation knowledge required by your employees working with or servicing people with this unique need. This course is aimed at all professionals working in care organisations to bring about an awareness of the subject and provide them with the confidence they might lack in communicating with people with dementia.

Our Pulse**Care**™ solution leverages the highly accessible nature of the Web to reduce the time and cost associated with training. The Pulse**Care**™ solution is available to your employees whether they are currently online or not. In line with your needs, our solution can be supplemented by a variety of tailored components, including quarterly Web seminars with leading industry experts and on-site consultancy.

COURSE CONTENT

Our one-hour Dementia Care course includes:

- ▶ Support of individuals with dementia
- ▶ Roles, responsibilities and boundaries
