

# PulseCare™ Face-to-Face Training

## FACE-TO-FACE TRAINING FOR CARE ORGANISATIONS

PulseCare™ face-to-face (F2F) training solutions start with measurable learning objectives that reflect the business goals of your care organisation. Course content is mapped to these learning objectives and structured to flow in a way that ensures learner engagement, peer group involvement and accountability for learning.

Our F2F training teaches the essential content that requires the guidance of the expert instructor and guest speakers. Activities built into the content will engage learners and enable them to benefit from the insights and experiences of others. After classroom training, learners can be supported with additional learning and coaching as needed.

As always, the PulseCare™ solution is entirely about your organisation's values and goals. The content is fully customisable and can be paired with bespoke content development to create a uniquely deep and lasting learning experience for your care workers.

## COMPONENTS OFFERED INCLUDE:

- ▶ Expert instructors
- ▶ Classroom presentations
- ▶ Learner guides
- ▶ Discussion questions and answers
- ▶ Group activities
- ▶ Feedback surveys
- ▶ Ongoing workplace coaching

## ABOUT PULSELEARNING

**PulseLearning** creates learning solutions that bring measurable business value to our clients. We achieve this through a high-energy, client-centric approach that combines excellence in people, process, partners, technology and innovation.
