Part-time Google Educator / Instructor
Location: Sydney, Melbourne
PulseLearning

Overview:
Grow with Google is a global initiative that draws on Google's 20-year history of building products, platforms, and services that help people and businesses grow. Through Grow with Google, Google aims to help communities – those who make up the workforce of today and the students who will drive the workforce of tomorrow – access the best of Google's training and tools to grow their skills, careers, and businesses. Grow with Google hosts free hands-on workshops, one-on-one coaching and community events, so people can gain the skills needed to thrive in today's digital economy.

- Are you passionate about teaching and helping learners reach that "aha!" moment?
- Does the idea of helping small business owners, job seekers, educators, students and the general population excite you?
- Are you committed to diversity and inclusion?
- Are you passionate and knowledgeable about technology and how it can be used to secure brighter futures for people in your community today and tomorrow?

If you responded "YES!", apply today!

Essential Job Functions:
- Deliver digital and soft-skills instruction in a motivating, positive, and inclusive environment
- Oversee and direct engaging workshops to groups of people with widely varied learner levels
- Use expertise in Google products to teach technical skills to learners with both non-technical and tech savvy backgrounds
- Monitor engagement, feedback, and attendance levels of classes to suggest improvements and changes to evolve course curriculum
- Create a welcoming environment for learners of all demographics with the ability to adjust teaching styles on the fly based on learner needs
- Act as a steward of the Google brand across all interactions with the media and the general population
- Direct any volunteer Googlers and teaching aids for optimal instructor/learner engagements

Preferred Qualifications:

- Experience in teaching, coaching, training, facilitation, management, and/or program delivery
- Strong understanding and personal adoption of Google products to include Google Workspace (Gmail, Drive, Slides, Docs, Sheets), Google Analytics and Google Ads
- Ability to recognize the need for adjustment to the classroom environment or your teaching style based on the immediate needs of the group
- Ability to recognize opportunities for improvement to curriculum or course delivery and communicate that clearly to key stakeholders
- Experience training and engaging with an array of learner demographics
- Ability to learn and teach technical material to non-technical audiences
- Passion for helping others grow their skills to reach their career and business goals
- ***Expertise in any or all of the following areas preferred:*** Career development, resume writing, entrepreneurship, digital advertising, website development, search engine optimization, marketing analytics, coaching, and people management
